DUN'S REVIEW OF TRADE.

People Buying More Goods Than Usual and Politics Does Not Seem to Interfere with Business—Slight Stringency in the Money Market—Failures of the Week.

NEW YORK, Nov. 5.—R. G. Dun & Company's weekly review of trade says: Even in the last week before the presidential election, business has continued very active. The people are clearly buying more goods than ever before, and in some branches manufacturers are realizing a slight advance in prices. Money is closer at some western points, but no where is stringency seen, and there is no apprehension as to the immediate future. Wheat has touched the lowest point ever known in this market, seventy-three and one-half cents, receipts at western ports being still enormous.

Exports have much increased, and a recovery in price to seventy-four and one-half cents has resulted, but the decline for the week is still one and one-fourth cent. Corn has fallen a cent, with moderate movement, but oats are a cent higher. Sales of cotton have amounted to more than a million bales, and the price has advanced an eighth, for southern accounts appear to indicate a greater decrease in yield and the receipts are again comparatively small. Coffee is three-eighths lower, and hogs also, while lard is one-fourth stronger, and oil one and three-eighths cents higher.

Speculation is not very active except in cotton. Trade at Boston is very satisfactory. Jobbing trade in dry goods is steady, some cottons have advanced in price, and more machinery seems to be needed. Wool is firmer with sales of over 4,000 pounds, and the clothing trade fair in spite of mild weather. The boot and shoe business is active, with factories full of work. At Philadelphia iron has an advancing tendency, some improvement is seen in boots and shoes, the advance in paper is well maintained and wool is active with some grades scarce. In paints, glass and oils moderate activity is seen.

Trade is healthy and buoyant at Baltimore, Pittsburgh notes activity in iron, especially in finished products, and a fair trade in glass. At Cincinnati business somewhat exceeds last year's, in groceries 20 to 30 per cent. At Cleveland business is good, exceeding last year's, especially in rolled iron. At Detroit trade is larger than a year ago, and manufactures very active. At Indianapolis business is especially active in foundries, machinery and saw manufacture. Trade at Chicago has been satisfactory, with especial increase in real estate transactions. Receipts of corn have been double last year's, wheat and hides show a gain of 70 per cent. for the week, butter 50, barley 40 and dressed beef 25 per cent., while in rye, oats, sheep and hogs a decrease of a third appears, in lard 50 per cent and in wool 75 per cent.

Money is in strong demand at 6 per cent., little returning from western centers. At Milwaukee many of the largest houses were burned out, but none appear to be crippled so far, and collections are still fair. At St. Paul business is active, and at Minneapolis lumber is strong, and wheat moving more freely. At Omaha and Denver trade is very good; at Kansas City business is large in volume, with liberal receipts of live stock and better prices. At St. Louis, though the weather checks trade in woollens and clothing, groceries, boots and shoes, and dry goods generally are strong, and grain receipts heavy. At Louisville business is a full average and at Memphis slightly improved, though below the normal volume.

At New Orleans labor trouble retards trade, but cotton is higher and active and receipts of sugar liberal with good demand. The iron business improves everywhere and unsold stocks are fast disappearing. Pig is stronger, but bar somewhat weak; the demand for plate is only moderate, but for structural iron very large, and sheets are active with especial pressure for the lighter qualities. Western competition depresses plates, but for the industry as a whole, the tone has distinctly improved.

Wool sales for the week have been 7,100,000 pounds, against 4,800,000 the same week last year, and since May 13 the increase has been 37 per cent. The demand for woollen goods is active for the season; cotton goods are firmer, and in some lines higher in price. Fall River mills have voluntarily increased wages 7 per cent. Boot and shoe factories are surprisingly busy for the season, shipments for the week exceeding last year's 9 per cent. Rubber is easier at 65 for paraffine, and the advance in paper has been maintained, though there is some feeling of uncertainty. The Bank of England made no advance in rates, and money here has been steady at 6 per cent.

Merchandise exports are improving and the excess of exports over imports is now large. Uncertainty has ruled during the week in the stock market. In general nothing seems to foreshadow monetary difficulty, and with colder weather and political uncertainty removed a great business is anticipated.

The business failures during the past seven days number, for the United States 207, Canada 31, total 238, as compared with 187 last week and 266 for the corresponding week last year.

Pardoned.

WASHINGTON, Nov. 5.—Secretary of State Foster has a cablegram from Minister Carr to the effect that the Danish government has pardoned Henry D. Ryder, late United States consul at Copenhagen, who was recently tried and convicted of embezzlement and sentenced to imprisonment at hard labor.

IAMS' CASE.

It Now Rests Entirely With the Jury if He is Guilty or Not.

PITTSBURG, Nov. 5.—Upon convening court yesterday, Senator Robbins began the opening address to the jury for the defense. His arguments were upon the enormity of the offense of Private Iams; the absence of cruelty in the punishment inflicted and the absence of malice. In his analysis of the testimony of Private Iams, the latter was scored unmercifully. The address was remarkable for its force and clearness.

Attorney Frank P. Iams followed with an argument for the prosecution. He reviewed at length the terrible punishment inflicted, comparing the rope with the thumbscrew and other implements of torture used in past ages.

At the conclusion of Mr. Iams' address to the jury, Judge Porter asked the prosecution if it had any further evidence by which they could directly connect Col. Hawkins with the punishment of Iams. The prosecution had nothing further to offer.

Judge Porter then began his charge to the jury by saying that malice means a reckless disregard of the rights of another and need not be proven in a simple assault and battery. "If the jury believe," said he, "that J. B. E. Streater and Col. Hawkins, in shaving the head of the prosecutor and afterward drumming him out of camp, were acting in pursuance of orders issued by a superior officer, they are not guilty of assault, and your verdict must be one of not guilty. The verdict in all the cases against Surgeon W. S. Grim must be acquittal."

"The claim set up by the counsel for Colonel A. L. Hawkins that he acted entirely in accordance with orders from a superior officer, is affirmed. The claims that Colonel A. L. Hawkins cannot be convicted because he had nothing to do with the punishment of Iams except to report the case to his superior officer, is refused. There is no evidence to show that General Snowden ordered the prisoner hung up by the thumbs. You must acquit Colonel Hawkins on all charges unless you think it has been shown beyond a reasonable doubt that he aided and abetted in the assault upon the prosecutor."

Next Judge Porter defined the law as it applied to assault and battery. Closing the charge to the jury with the remark: "If you are not satisfied beyond a reasonable doubt that defendants were actuated by other than the highest motives in their efforts as military commanders engaged in actual war to maintain discipline it would not be fair to convict them of the crime charged."

MINISTERS ON TRIAL.

They Are Accused of Defrauding Several Different Insurance Companies.

ST. JOHNS, N. B., Nov. 5.—Rev. Sidney Welton, and Rev. C. B. Welton, Baptist clergymen, and Dr. Randall, are on trial at St. John for systematically defrauding a number of benevolent and total abstinence insurance companies of New York, Chicago and Boston. They found men in the last states of disease, got up bogus medical examinations, got policies, averaging from \$1,000 to \$5,000 dollars and at the death of the parties gave the families but a fraction of the amount realized.

Yesterday Gideon Reid was implicated. Discovering that his pals had cheated even him out of his share of the booty, he confessed and made most damning statements against the ministers and the physicians showing that the fraud was practiced to a great extent all over the provinces and that these American companies had been swindled out of many thousands of dollars. The exposure has caused a great sensation.

SERIES OF CASUALTIES.

Several People Hurt and Some May Lose Their Lives.

FRANKLIN, Ind., Nov. 5.—Quite a list of casualties are chronicled at Bangersville, this county. The death of two well known residents is hourly expected—Shelby Garshwiler, who has been ill for some time with Bright's disease, and Mrs. William Rivers, who is succumbing to old age. C. Doty, of the same village, was seriously, if not dangerously, injured by a runaway horse, the vehicle attached passing over his body. Andy Surface also suffered a broken arm by being thrown from the merry-go-round, and after it was set broke it again.

Mrs. Alice Taylor, of White River township, also figured in a runaway accident, it being her second experience of the kind recently. She sustained serious injury, necessitating the closing of the school of which she is teacher.

Double Tragedy.

LAPORTE, Ind., Nov. 5.—Conrad Gaa, a railroad engineer, murdered his wife here Thursday night, and committed suicide by taking rat poison. The woman's body was found in Collin's park yesterday morning, and Gaa's at the home of his parents. Her right arm was nearly severed from the body. There was a gash cut in the left wrist, three large gashes in the right breast, and she was shot several times. Gaa and his wife had been married and divorced several times. He left a letter giving the reasons for his act.

Gambling in a Church.

LIMA, O., Nov. 5.—The basement of the North Street Episcopal church has been found to be a rendezvous of a lot of juvenile gamblers who gained access to the building through the rear door which opened from the outside. The janitor found the basement strewn with whisky flasks, playing cards, remnants of cigars, etc. The boys are known and will be prosecuted.

Murder Over Cards.

BIRMINGHAM, Ala., Nov. 5.—At Blossburg, Ala., yesterday, a game of cards between miners broke up in a row. Joe Murphy shot Lawrence Early, Richard Thomas and C. B. Johnson. All will die. Murphy escaped.

THANKS WE RETURN

Proclamation Issued By the President.

NOVEMBER THE 24TH THE DAY.

The President Issues His Annual Thanksgiving Proclamation, Declaring the Twenty-Fourth Day of November a Day of Thanksgiving—Other Washington Dispatches.

WASHINGTON, Nov. 5.—The president has issued his annual Thanksgiving proclamation as follows:

By the president of the United States of America, a proclamation.

The gifts of God to our people during the past year have been so abundant and so special that the spirit of devout thanksgiving awaits not a call, but only the appointment of a day when it may have a common expression. He has stayed the pestilence at our door; He has given us more love for the free civil institutions in the creation of which his directing providence was so conspicuous; He has awakened a deeper reverence for law; He has widened our philanthropy by a call to succor the distress in other lands; he has blessed our schools and is bringing forward a patriotic and God fearing generation to execute His great and benevolent designs for our country; He has given us great increase in material wealth and a wide diffusion of contentment and comfort in the homes of our people; He has given His grace to the sorrowing.

Wherefore, I, Benjamin F. Harrison, president of the United States, do call upon all people to observe, as we have been wont, Thursday, the twenty-fourth day of this month of November as a day of thanksgiving to God for His mercies, and of supplication for His continued care and grace. In testimony whereof I have hereunto set my hand and caused the seal of the United States to be affixed. Done at the city of Washington, this fourth day of November, one thousand eight hundred and ninety-two, and of the independence of the United States, the one hundred and seventeenth.

BENJAMIN F. HARRISON.

By the president: John W. Foster, Secretary of State.

WAS SURE OF DEATH.

Desperate Deeds Done by a Man Determined to Die.

SOUTH BEND, Ind., Nov. 5.—Harry Smith, forty-two years old, was found dead in his room at the Sheridan House yesterday. He had stopped every crevice in the room, turned on the gas and then shot himself in the right temple with a 32-caliber ball, which flattened on his skull and did not enter. It is thought the escaping gas killed him. He was head clerk at Moses Livingston's clothing house here, and he came from Grand Rapids, Mich., one year ago, where he leaves an invalid wife and several children.

Mr. Smith had been drinking hard since Friday night. He was exalted ruler, Order of Elks here; also a Mason, secretary of the Clerks' union, a member of the Central Labor union and formerly a newspaper man. He was esteemed by his employers and others. Mr. Smith wrote a letter stating he was tired of life and with struggling for a bare existence. He gave directions about his friends and the disposition of his body. The remains will be shipped to Grand Rapids.

Strike Feuding.

BOSTON, Nov. 5.—Yesterday Agent McGinty, of the building trades council, ordered out the carpenters, painters, plumbers, plasterers, steamfitters and stair builders, numbering thirty-five men, employed by Contractor Warren on the Gluer building, corner of Fairfield and Boylston streets. The trouble was caused by Mr. Warren declining to instruct twelve non-union carpenters in his employ to join the union. Unless an understanding is reached several union men employed by the contractor on other buildings will probably strike by Monday night.

Ex-Congressman Dead.

WASHINGTON, Nov. 5.—Colonel Van H. Manning, ex-member from Mississippi, and a prominent politician and lawyer in Maryland, since his retirement from public life, died at his residence at Branchville, a small village situated about ten miles from Washington, on the main stem of the Baltimore and Ohio railroad, yesterday afternoon about 5 o'clock. An attack of grip about one year since left Colonel Manning in a very precarious state of health, and he never fully recovered.

Mysterious Disappearance.

NEW YORK, Nov. 5.—It has been reported to the police that Charles Gill, a wealthy African mine owner, has mysteriously disappeared. When last seen, two days ago, he had in his possession, it is stated, nearly \$250,000. He was stopping at a small hotel on West street and had a fellow lodger named W. B. Brunton, who has reported the disappearance to the police. Gill is fifty-eight years old and a cripple, having to use crutches.

Crazed By Remorse.

LITTLE ROCK, Ark., Nov. 5.—It is reported that A. W. Bennett, whose alleged negligence in delivering an order caused a railroad collision here a few days ago, in which two persons were killed, has been crazed by remorse and is now wandering in the woods, a raving maniac. The coroner's jury held him responsible for the collision. He is fifty years old and has a wife and family.

Bark Ashore.

LONDON, Nov. 5.—A cablegram from San Domingo states that the bark Elieser (Norgean) Jansen went ashore and was totally wrecked at Punta Palma. The vessel was taking in a cargo at the time, and was bound for New York.

BURNED IN THE SEINE.

Several Lives and a Valuable Cargo Lost.

PARIS, Nov. 5.—The British bark Norcross, which left Philadelphia Oct. 2, for Rouen, France, with a load of petroleum, has been burned in the Seine with a loss of three, and probably ten lives. Captain Roop, who was in command of the Norcross, had his wife with him and both were saved. How the fire originated is not known. When it was discovered it had considerable headway and every effort to prevent it from spreading to the petroleum was in vain.

As soon as the petroleum caught an explosion followed and a bright flame shot up into the air where the dense smoke almost hid the bark from those on shore. The crew rushed to the side and leaped into the river. The captain's wife was saved chiefly by her husband's exertions. Five others were also saved. The remains of three, horribly burned, were found in the river, and seven others are missing, and it is thought they have gone to the bottom. Several of the survivors were injured by the burning petroleum which floated on the water in a fiery state some distance about the vessel, making approach to the wreck dangerous.

BREAD RIOTS.

Terrible State of Affairs in One Portion of Spain.

MADRID, Nov. 5.—Rioters have been in possession of Caceres, near Trujillo, since last evening. The recent rise in the price of bread has caused much suffering among the workers in the cloth, leather and linen factories. Last night agitators called a meeting of workmen in the old town, and some 1,300 men attended it. The speakers urged the people to plunder the shops and bakeries. Several windows were smashed, but gendarmes dispersed the crowds, and for the rest of the night there was no disturbance.

Most of the laborers remained from work yesterday and paraded the streets. The efforts of gendarmes to disperse them culminated in a fight. Three gendarmes were severely wounded with stones and knives and eight rioters were seriously injured. The gendarmes were repulsed and the workingmen began attacking the bakeries. The bakers had barricaded their doors, and in only one case was the barricade forced and the shop plundered. Everywhere the rioters smashed all the windows.

RUNAWAY INDIAN BOYS.

Great Difficulties in Educating the Young Redskins.

BAYFIELD, Wis., Nov. 5.—About a month ago a priest from the boys' Catholic school took five boys from among the Indian families to school. They were all aged about sixteen years and their names were Jack LaPointe, Albert Gordon, John Chingway, John and Pete Soulier.

Last night Pete Soulier returned to Bayfield weary and footsore. He had run away from the school and made the journey—about 600 miles mostly on foot. His brother and the LaPoint boy are now on the road, and the other two, after escaping with the rest, weakened and returned to school. He tells a long story of ill treatment and poor food at the school, but it is thought that his tale has no basis in fact, and is certain that the boys were much better off at the school than here, as they are orphans.

THE PARIS FUND.

It is Thoroughly Tied Up and Will Be for Some Time.

LONDON, Nov. 5.—Messrs. Monroe & Company, the bankers of Paris who have in their possession the money known as the Paris fund, belonging to the Irish parliamentary party has written to Mr. Justin McCarthy in which they say they have consulted counsel in regard to the release of the fund, who advises them that they cannot part with the money unless authorized to do so by the tribunal of the Seine.

No compromise between the two sections of the Irish parliamentary party regarding the disposition of the fund, they add, can free them from responsibility. Months may elapse before the tribunal of the Seine gives a decision in the matter.

American Wheat Wanted Abroad.

ST. PETERSBURG, Nov. 5.—The fact that the American wheat is driving the Russian wheat out of the market is making itself felt with disastrous consequences throughout Russia. Eight large firms whose business was chiefly in grain have gone into bankruptcy during the past week and another very important concern, finding the grain trade profitless, has decided to abandon that branch of its business. The failure of the government to replenish its depleted exchequer by a foreign loan renders the outlook very gloomy.

Real Estate Swindler Locked Up.

INDIANAPOLIS, Nov. 5.—George Wallace, who was engaged in a number of real estate swindles in this city, was placed in jail yesterday, having been arrested at Oakland, Cal. He was indicted a year ago, but made his escape before arrested. He was the leader of a gang of four real estate sharks who, by fraudulent deeds and mortgages and forged abstracts, swindled a number of persons.

Not Going to India.

LONDON, Nov. 5.—The London agent of Josef Hofman states that he has received a communication from the parents of the young pianist stating that Josef is with them in Germany pursuing his musical studies, and that there is no truth in the story about his going to India as a stowaway.

Salvationists Arrested.

GENEVA, Nov. 5.—Miss Catherine Booth and Mr. Clibborn, of this Salvation Army, were arrested together here yesterday. Both will be expelled from the army.

CYCLONE WRECKED.

Fearful Damage Done By Storms and High Seas.

CARIBBEAN SEA DISASTER.

Many Homes Devastated and Several Plantations Swept Entirely Out of Existence—The Loss at Present Impossible to Ascertain—Great Damage Done, but So Far No Loss of Life is Reported.

BALTIMORE, Nov. 5.—News of a cyclone at Old Providence and San Andrea, in the Caribbean sea on Oct. 9 was received in this city yesterday. The cyclone prostrated many houses and devastated several plantations. The loss amounts to many thousands of dollars.

The cyclone began early in the morning of Oct. 8, at San Andrea, and continued for more than fourteen hours. Small frame houses were lifted from their foundations and carried a hundred feet by the strong wind. No one is reported killed. Acres of coconut trees were blown down. It will take a long time to rebuild the wrecked houses on the islands. The damage to the coconut trees will shorten the crop.

FOR GOOD ROADS.

An Earnest Body of Men With a Most Worthy Purpose.

NEW YORK, Nov. 5.—The executive committee of the National League for Good Roads, which was organized last month in Chicago, held its first meeting in this city Thursday. The first step taken was the appointment of committees. For the city of Boston Colonel A. P. Pope was appointed; Philadelphia, A. H. Rahn, A. J. Cassett and Edward Browning; New York, General Roy Stone, Dr. C. B. Ripley and W. S. Webb; Baltimore, A. A. Mott; Chicago, Samuel W. Allerton and F. W. Gerould. Similar committees were appointed from the wagon and bicycle manufacturers, from the wagon manufacturers, Clem. Studebaker and F. W. Hooker; from the bicycle manufacturers, A. A. Pope and Charles L. Burdette.

Committees were appointed to visit the grangers' national convention which meets in Concord, N. H., Nov. 10, and also to the southern interstate road congress at Memphis on the same date. Judge E. H. Thayer, of Iowa, and Thornton K. Prime, of Illinois, will go to Memphis and state to the congress what the national league proposes to do and invite the aid of the congress, and C. L. Burdette, Captain E. M. Shaw and J. M. Hackett, of Illinois, will do the same thing at the grangers' convention. A western sub-executive committee was also appointed, consisting of P. D. Armour, S. W. Allerton and Clem Studebaker. General Roy Stone, who is prominently connected with the movement, said the organization had met with the heartiest reception all over the country.

ARBITRATION FAILS.

A Great Strike Liable to Occur in a Few Moments' Notice.

NEW ORLEANS, Nov. 5.—The Amalgamated council has ordered a general strike, but the community is in hope that all the unions will not join. The sixty-three unions consented to go out in the first instance, because of the refusal to recognize unionism, the cardinal principle of their organization. Since then the merchants have conferred with them, thus recognizing the unions and arbitration failed on other grounds. There are members of the Amalgamated council who urged that the recognition of the merchants was a subterfuge and the failure to arbitrate was really a denial of the union principle.

The council has, in fact, based its call for a general strike upon the failure to recognize unionism, but the Typographical union and other of the older and stronger bodies take a different view of the situation and held a meeting yesterday to consider the strike proposition. If they refuse to go out it will complicate matters, so a general strike project is somewhat indefinite although ordered. If the strike takes place it will involve newspapers, electric light, bakers, street cars and all the other branches of industry in the city and throw 25,000 men out of employment.

PARTLY EXPLAINED.

The Body of a Mysteriously Missing Man Found in a Canal.

POONTON, Nov. 5.—Anthony Hart, a resident of this place, disappeared on Wednesday last. Yesterday his body was found in a canal here. There are two theories as to the cause of his death. One is that he fell into the race accidentally and was drowned. The other was that he was waylaid, robbed and was then thrown into the canal.

About two months ago De Hart reported to the police that he had been attacked by highwaymen on the little bridge over the canal one dark night on his way home, but at that time he escaped. Some time ago De Hart suffered from some illness which affected the brain, and it is thought by some that he may have wandered off the bridge, fallen into the canal and was drowned. The young man was twenty-three years of age, and the grandson of Judge Kanouse, of this place.

After a Million.

NEW YORK, Nov. 5.—The motion to make permanent the temporary injunction which Edward S. Stokes obtained, preventing his cousin, W. E. D. Stokes, from encumbering property in Virginia, West Virginia and Kentucky, said to be worth nearly \$1,000,000, was argued before Justice Barrett, of the supreme court, yesterday. It was argued that Edward S. Stokes has an interest in these lands, and unless the injunction is made permanent, his interest would be impaired. The decision was reserved.

Republicans Praise Paynter

Postmaster Davis, editor of the Public Ledger, the Republican organ of this district, was in Washington City last May, and in a letter to his paper, published May 20, said:

"Hon. Thomas H. Paynter is popular with everybody, and I can cheerfully bear testimony to his efficiency, having had frequent occasion to call upon him in behalf of the public service."

Public Ledger September 7:

"Hon. Thomas H. Paynter, present Congressman from this district, was nominated at Carlisle yesterday for a third term. The 'trade of politics' has become so perverted that one can not do justice to his opponent without having his motives impugned; but it is only fair to say that Mr. Paynter has made a good Republican. So far as we know he has been attentive to the wishes of his constituency, and business entrusted to his care has received prompt attention."

The attempted passage of the Force bill by the Republican party was certainly its crowning infamy.

It is important for every Democrat to vote early next Tuesday, and see that his neighbor does likewise.

It is reported that Republicans will try to bribe Democratic voters to stay away from the polls next Tuesday. Under these circumstances no Democrat can afford to stay at home.

The Republicans claim that the object of the Force bill is to insure the purity of elections. If they had said "to insure a purely Republican election," they would have come nearer the truth.

A GREAT many suits are pending against the C. and O. in the Circuit Court of Bracken, Mason, Lewis and Greenup counties. Mr. Cochran, the Republican nominee for Circuit Judge, has been engaged as attorney in most of these suits, and his elevation to the bench would require a special Judge to try these cases. He would not want to sit as Judge in an action in which he had acted as attorney. The special Judges to sit in these railroad cases would cost the tax-payers of the district hundreds of dollars. Mr. Cochran's election would prove an expensive one to the district.

THE INFAMOUS FORCE BILL.

This infamous measure defiantly announces to the States that "we will register your votes, we will supervise your elections, we will count your votes, and if the returns of your regularly constituted authorities differ from ours we will provide a partisan board to supersede your judges, and the certificate of this shall be the passport to Congress

from which no appeal will lie. If you disobey this law you shall be tried before Republican judges and packed Republican juries, and if there is any conflict of authority between the State and Federal powers then the armies of the Union shall be called in to take possession of the polls."

The Coercion bills that the British Parliament has, time and time again, passed to subdue the spirit of the Irish people are mild and temperate compared with this desperate scheme.—Congressman Rayner.

HOW HE IS BEGGING!

Sample of the Letters "Andy" Cochran is Sending Out, Appealing For Democratic Votes.

The Republican nominee for Circuit Judge can not be elected without Democratic votes. He realizes this, and has been conducting a "begging" campaign from the start. Here is a sample of the letters he is writing to Democrats throughout this county:

MAYSVILLE, KY., October 31, 1892.

Esq.—Dear Sir: For fear that I may not get to see you personally before the election I write to let you know that if you can see your way clear to support me for Circuit Judge I will appreciate it. I have an ambition to be a Judge. It is in the line of my profession, and I think I can so administer the office that it will redound greatly to the interest of the people. You are no doubt aware of my disposition to work, and of my experience as a lawyer, and I will do my utmost, if elected, to serve the people well, and thereby make a reputation for myself.

The office is a non-political office, and there will be no politics in my administration of it. Yours truly,

A. M. J. COCHRAN.

The name of the gentleman to whom this was written is omitted, by request. He is one of the staunchest Democrats in the county, and is not to be caught by such appeals.

"Non-political!" "Non-political!" That's Mr. Cochran's cry. In a speech at the court house Thursday night he admitted he is a Republican, and always has been one. But this admission was not necessary. In every hot contest of the past he has been one of the most active workers at the polls against the Democracy. He has always fought the Democrats when any fight was made.

In the face of such a record how can any true Democrat support him?

How can he have the cheek to appeal to any Democrat for support?

Every Democrat who votes for him is simply putting a club in the hands of the enemy for use in future contests.

Accident in a Mine.

CHILLICOTEE, O., Nov. 5.—There was a disastrous wreck on the Baltimore and Ohio Southwestern railroad at Roxabell, eight miles from here, yesterday. The third car from the engine on a freight train broke down and twenty-one cars were piled on top of it. William Chambers, the front brakeman, was buried under three cars and crushed to death.

MAKE A NOTE.

Some Rules and Regulations Provided by the New Election Law.

Officers, Inspectors and Voters Should Give These Careful Consideration.

One of the ink stencils used in marking ballots shall be safely placed in each booth, the others preserved by the clerk to be used in case any are lost, stolen or destroyed. Should any person steal or willfully destroy either of said stencils, he shall, upon conviction, be fined not more than fifty dollars, or confined in the county jail not more than six months, or both.

Election booths shall be well lighted. The booths shall be so arranged that all the officers of election can see whether more than one voter enters any of such booths at one time. The sheriff of election, in each precinct, shall have the care and custody of said booths, and may direct in whose custody they shall remain after an election. No person other than election officers and challengers and those admitted for the purpose of voting shall be permitted within the room while the vote is being polled, except by authority of the election officers, to keep order and enforce the law.

The officers of the election, before the voting begins, shall see that no ballots are in the box, and shall thereupon securely lock the box, and give one key to each of the judges; and the box shall not be again opened until the polls are closed, and the officers are ready to immediately proceed with the counting.

The polls shall be opened at seven o'clock in the forenoon, and kept open continuously up to and closed at four o'clock in the afternoon, and before receiving the ballot of any elector, the officers of election shall cause to be proclaimed that such election is opened.

No person other than the election officers and challengers shall remain within fifty feet of the polls, except when voting.

In Maysville, voters should remember the number of their residence.

No ballot shall be rejected for any technical error, which does not make it impossible to determine the voter's choice.

If a person offering to vote is not personally known to one of the judges or the sheriff as a qualified voter, he shall be interrogated, under oath administered by one of the judges or the clerk, as to his qualification.

Voters shall leave the room as soon as they have voted.

Voters have no writing whatever to do. The clerk does the writing. All the voter does is to stamp his ballot, fold it and give it to one of the judges.

THE DIPHTHERIA.

The Physicians State There is No Cause For Alarm—An Investigation.

In pursuance of a request made by the County and City Board of Health, each physician of Maysville was asked to report all cases of diphtheria under his professional care.

Dr. Pickett—"I have no cases of diphtheria. There is no cause for great alarm."

Dr. Cartmell—"I have no cases of diphtheria. There is no epidemic now, nor has Maysville, to my knowledge, ever had an epidemic of diphtheria."

Dr. A. G. Browning—"I have two cases on Front street, Fifth ward, convalescing, another in Fifth ward that may not turn out to be diphtheria. This is not an epidemic."

Dr. Smoot—"I have no diphtheria. There is unnecessary alarm over the subject."

Dr. Adamson made no report.

Dr. Reed—"I have one case on West Second street that is convalescing. It is no unusual thing to find at this season an occasional case of diphtheria. There is no epidemic."

Drs. Strode & Samuel—"We have one case convalescing. There is no epidemic of the disease in our city and no reason for excitement."

Dr. Pangburn—"I have one case in Sixth ward."

Dr. Phillips—"I have a case of diphtheria in my practice."

Dr. Shackelford—"I have a case of diphtheria in my own family. It is a light attack and the little patient is convalescing."

Dr. Pollitt—"I have no diphtheria at all in my practice."

Dr. Phister—"I have three cases in one family on Grant street. It is no unusual occurrence to find diphtheria at this season in any town along the Ohio Valley. There is no epidemic in this city."

Dr. O'Brien—"I have no case of diphtheria."

Dr. Yazell—"I have two cases in Sixth ward, and they are convalescing."

Dr. Stevens—"I have but a single case and there is no cause for alarm."

From the intelligent source from which

the above information has been obtained, there certainly seems to be no reason for alarm.

The one fact is apparant, no epidemic of diphtheria has ever visited our city. The reports gone out are unwarranted when compared with the facts and evidence obtained above. It was an unfortunate coincidence that in almost half of the fatal cases the deaths occurred within a few hours of each other.

However appalling that one day may appear, the mortality, so far as diphtheria is concerned, is no greater for 1892 than it was for 1891.

In the published report of the deaths occurring in the city of Cincinnati or of Louisville scarcely a day goes by but that diphtheria is named on the list of casualties. It is read with composure and with no great alarm.

The city of Maysville is in a good sanitary condition. Every physician knows his duty in the premises and the public can rest assured that an epidemic of diphtheria will not occur.

The City Board with the County Board of Health investigated the subject and find no reason for closing schools, interrupting any daily business or pursuit in in the city of Maysville.

CLEON C. OWENS, City Physician.

WEDDED AT COVINGTON.

Marriage of Miss Florence Yago to Mr. Charles Willett—Nuptial Notes.

Says the Covington Commonwealth: "Under the most favorable auspices a charming wedding occurred Thursday evening at the home of the bride, 734 Greenup street. The contracting parties were Miss Florence Yago, daughter of the well known musician, Mr. Philip Yago, (formerly of Maysville), and Mr. Charles Willett, foreman of Mr. J. A. Brownfield's planing mill on Eighth street, Covington.

"The bride was lovely in her robe of rich cream colored brocaded silk, relieved with graceful garniture of lace. With modest mien she received the sacred marriage vows, and the ceremony was impressive and beautifully performed by Rev. Dr. Mitchell, of Eleventh Street M. E. Church, South.

"The music was sweetly appropriate for the happy occasion, and was furnished by Professor Cooper's selected orchestra.

"Miss Myrtle Ort, of Maysville, in a becoming gown, gracefully acted in the capacity of bridesmaid, and Mr. Paul Wisenall, a most genial and intelligent gentleman, as groomsmen.

"The Uniform Rank of Knights of Pythias, of which the groom is a prominent member, attended in fatigue uniform.

"The fortunate couple received many costly presents, and congratulations were of the sincerest and most complimentary character."

REA'S REASON'S

For Deserting the Republican Party For Cleveland.

ST. PAUL, MINN., November 2.—A few days ago Joseph W. Kay, Chairman of the Executive Committee of the Veterans' Rights Union, New York, wrote Judge John P. Rea, ex-Commander of the G. A. R., a letter of congratulation in regard to his announcement that he intends to vote for Cleveland, and his praise of the ex-President in regard to his attitude toward the old soldiers. Judge Rea wrote his reasons to-day as follows: "My interview with President Cleveland in 1888 conclusively convinced me that he was not an enemy, but a friend of the Union soldiers. He listened with the greatest interest to my views on the subject of pensions, and when I was done, said: 'What you say the soldiers want is in accord with my views, and is right.' I stated to you and to many others at the time that I had never talked with any one on the subject of pensions whose views corresponded more nearly with my own. He was earnest, full of sympathy, and in that, as in every thing else, absolutely honest in fidelity to his convictions. I have never at any time since, when occasion offered, failed to express my opinion of him in this regard, or to defend him from the charge of being an enemy of the Union soldier. I have felt keenly the injustice of that charge, and have felt humiliated by the fact that any intelligent soldier should believe it. Sincerely your friend and comrade, JOHN P. REA."

THE recent rains have not started the creeks nor filled the pools, and it is getting to be a problem in some sections of the county where the water supply is to come from. SETH LOW,

President of Columbia College and Ex-Mayor of Brooklyn, Comes Over.

Another Big Republican to Vote For Cleveland—One of the Best Men of New York.

NEW YORK, November 4.—The Times, this morning, says: "Mr. Seth Low, President of Columbia College, said yesterday, to a reporter of the Times, that he had decided to vote for Cleveland. Mr. Low has been one of the best known Republicans in the State. He was twice elected Mayor of Brooklyn as a Republican candidate.

Mr. Low was asked last night if he would give his reasons for deciding to vote for the Democratic ticket. He said that he did not care to make any public statement of his reasons for this decision. "The report is true," said Mr. Low. "I intend to vote for Mr. Cleveland; but I do not care to give out any statement in regard to the matter." When asked if his decision was a recent one, Mr. Low replied: "It was quite recent."

Mr. Low is one of the best known citizens of New York State. He was elected some years ago as the reform Mayor of Brooklyn, and took the city's government out of the hands of the politicians, and pleased the people so well that he was re-elected by all parties.

He was the chief authority consulted when the Commercial Club of Cincinnati inaugurated its move for a new charter, and made an interesting address before the club.

HE WILL FIGHT.

Bob Fitzsimmons Anxious to Meet Jim Hall at New Orleans.

NEW YORK, Nov. 5.—Bob Fitzsimmons, the pugilist, has agreed to fight Hall at New Orleans for a purse of \$40,000. This is the outcome of a conference between Judge Newton, of the Coney Island Athletic club, and President Noel, of the Crescent club of New Orleans. Bob Fitzsimmons and Martin Julien, his manager, met at the Hoffman House yesterday afternoon to determine whether Fitzsimmons would meet Hall at Coney Island of New Orleans. The conference was spirited. Mr. Noel offered on behalf of his club a purse of \$40,000, and Fitzsimmons accepted it, notwithstanding that in the same breath Judge Newton offered \$45,000 if the fight should occur at Coney Island.

Fitzsimmons said he accepted the New Orleans offer because that club had always been kind to him; because it was there that he had made his first appearance in this country, and because there he was sure of fair play. Immediately after the conference Judge Newton, who was very angry, wired to Hall, care of The Sporting Times, London, as follows: "For what purse will you meet Choyinski at Coney Island and when?"

Echo from Homestead.

PITTSBURG, Nov. 5.—On Wednesday, Nov. 16, Sylvester Critchlow will be placed on trial in the criminal court. He is one of the strikers who was engaged in the famous riot at Homestead on July 6 and is charged by the Carnegie Steel company with the murder of T. J. Connor, a Pinkerton detective who was on the barge that day. The murder charges will be tried first. The list will then be followed until all of the Homestead cases are disposed of.

Large Vessel Launched.

LONDON, Nov. 5.—The St. Petersburg correspondent of The Times says that the Russian ironclad cruiser Rurik, the largest vessel of the kind ever built in Russia, was launched yesterday. She is 435 feet long, 67 feet beam, 10,933 tons burthen and her engines are 13,250 indicated horse power. It is believed that she will be able to cover the voyage from Cronstadt to Vladivostok, a distance of 19,000 miles, without coaling on the way.

Riot on a Train.

ARDMORE, I. T., Nov. 5.—Four negro passengers on a Santa Fe train yesterday picked a quarrel with three United States deputy marshals, also passengers on the train. Pistols were drawn, and as a result Deputy Marshal Smith, and one of the negroes, name unknown, were shot dead. All concerned in the affair were arrested when the train reached here. The shooting created great excitement among the other passengers.

Forest Fires Extinguished.

PORT CLINTON, Pa., Nov. 5.—The fire on the Blue mountain was extinguished by yesterday's rain, after doing immense damage. Thousands of acres of timber were devastated. The flames reached the upper end of this place, and hundreds of men fought them to save the buildings from destruction. The fires started near Dreher'sville, where much damage was done, and extended to Hamburg, a distance of ten miles.

Trade in Canada.

NEW YORK, Nov. 5.—Bradstreet's trade report says: Dispatches from leading Canadian cities show a variable condition of general trade, it being fairly active in Quebec but quiet in Ontario. Montreal reports a dull grain trade, more activity in hog products, but a less favorable outlook for the export cattle trade. Unseasonable weather is said to have checked the wholesale clothing trade at Toronto.

and Riots.

ROME, Nov. 5.—Tax riots are reported from Barcellona, Sicily. An additional levy was resisted by the people; the collectors were stoned and the windows of the municipal buildings were smashed by a mob. The gendarmes were unable to restore order and several were injured in an attempt to disperse the rioters. Eventually the military broke through the mob. Ten rioters were wounded in the charge.

Shot by a Desperado.

MISSOURI VALLEY, Ia., Nov. 5.—W. C. Pollock, a traveling salesman for a New York diamond firm, was shot and seriously wounded by an unknown desperado on the Omaha train of the Fremont and Elkhorn Valley road near here yesterday evening. As Pollock sank to the floor of the car, his assailant picked up the drummer's sample case, containing \$15,000 worth of diamonds and escaped from the train.

Sunday Notices Not Legal.

ST. LOUIS, Nov. 5.—An opinion has just been given by the supreme court at Jefferson City to the effect that official notices published in a Sunday paper are not legal. The decision grew out of a case in which a taxpayer of St. Louis refused to pay a benefit assessment for the opening of a street, the official notice of which was published the required four days, one of which, however, being Sunday.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Osgood,
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. F. KINCHELOE,
Conway, Ark.

The Centaur Company, 77 Murray Street, New York City.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D.,
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."
